

2020 ARI Grant Recipients

Jennifer Chao, MD, PhD
Senior Grant Award
University of Washington
Research Title:
Targeting FHL-1 Haploinsufficiency in
Early Onset Macular Degeneration

Yohei Tomita, MD, PhD
Young Investigator Grant Award
Boston Children's Hospital
Research Title:
The Research for the Relevance of Free
Fatty Acid Receptor 4 and
Age-Related Macular Degeneration

Mike (Przemslaw) Sapieha, PhD
Senior Grant Award
University of Montreal
Research Title:
Immune Training and Tolerance in AMD

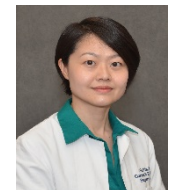

Anthony P. Khawaja, PhD, FRCOphth
Young Investigator Grant Award
Moorefields Eye Hospital NHS
Foundation Trust
Research Title:
Translating Glaucoma Genetics
Discoveries into New Treatment
Targets and Personalized Care

**David R. Williams, PhD and
William H. Merigan, PhD**
Senior Grant Award
University of Rochester
Research Title:
In Vivo Histology of Retinal Ganglion Cells
in the Primate Fovea

Jia Yin, MD, PhD, MPH
Young Investigator Grant Award
Massachusetts Eye and Ear Infirmary
Research Title:
Neuroregulation of Corneal Angiogenesis

Michelle Cabrera, MD
Young Investigator Grant Award
University of Washington
Research Title:
Handheld Swept Source Optical
Coherence Tomography with
Angiography Capability as a Tool to
Identify Advanced Retinopathy of
Prematurity in Premature Infants

William Tuten, OD, PhD
Young Investigator Grant Award
University of California, Berkeley
Research Title:
Advanced Optical Systems for Measuring
Vision at the Cellular Level in the Human
Eye
